Dear Mr. Blaylock:

On August 28, 1970, a representative of this office accompanied by Mr. John Bindeman, sanitarian, Montgomery County Health Department met with you and together we reviewed the site of your proposed landfill operation.

This tract of ground is located approximately 1,000 feet west of Old South Dixie Highway and is on the north side of Cardington Avenue. It would comprise an area of about 25 acres in size of irregular shape. This area is worked-out gravel pits and the land is owned by the Snyder Company. The land is at high elevation and no ground water is evident in any portion of the pit.

The main entrance roadway is to be off of Cardington Avenue and the entrance office building and roadway will begin at this point and extend in a northerly direction to the point of operation.

The engineering drawings of the area must be prepared by an engineering firm familiar with the preparation of plans for a solid waste facility. The enclosed data sheet must be filled out in every detail by the engineering firm so that a review can be made of your project.

This site appears satisfactory for the development of a landfill at this location.

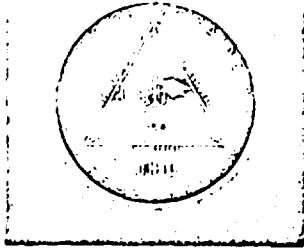

Very truly yours,

Attention: Lewis Blaylock

Dear Sir:

This is to advise you that the land known as Lot #3012, City of Moraine, at 1855 Cardington Drive, is zoned M-2, General Industrial.

This classification permits the use of the tract for a landfill, providing the proper permits are obtained from the City of Moraine and the Montgomery County Board of Health.

Very truly yours,

John F. Bush
